What they say about us

"Different boxes for different types of customers and collaborators allow us to reward the work done throughout the year and the good relationship between supplier and customer. The meaning of Christmas presents for us at Montebianco Costruzioni is this. We rely on Radici Italiane because the product is quality. And it's easier for us to delegate all the logistical work, because they take care of every shipment for the customer with the utmost care as if we were the ones shipping."

-Montebianco Costruzioni

"Time is very short to take care of corporate gifts and they take care of everything: from proposing really tasteful boxes, to logistics, shipping and delivery to the company on time. Made in Italy collected in a box is the best business card for our customers and employees."

-Nontex

"For Christmas, we commissioned Radici Italiane for corporate gifts to our customers. We chose this solution because, in addition to being positively impressed by the packaging of the boxes, the products are all of great quality and craftsmanship. The recipients who received the boxes significantly appreciated them. Also nice was the idea of the food and wine itinerary visible thanks to the QR code, which allows you to make an ideal journey in Tuscany."

-Gruppo Grafico Etichetta 2000
